This Form99 is submitted in response to the FEC's request for additional information dated July 28, 2014. The Committee apologizes for the fact that it did not respond in a timely manner. Please be informed that the four transactions reported on Schedule E for which no 24-hour notices were provided represent additional expenses related to the independent expenditure that was disclosed on a 24-hour report that was filed on May 7, 2014. As indicated on the Committee's filing, the additional expenses were identified with the distribution/dissemination date of the original reported transaction, but with a post-election disbursement date. On the Committee's filing, each of the subject transactions was noted as not stemming from a written contract or being an expenditure until payment was made post-election pursuant to a normal billing arrangement; these notations were intended to provide explanatory information about the non-inclusion of the transactions on pre-election 24-hour reports.
